

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

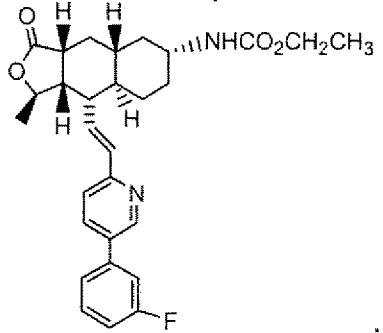

1-39. (Cancelled)

40. (Previously presented) A method of treating acute coronary syndrome in a patient in need thereof comprising orally administering to said patient a therapeutically effective amount of the thrombin receptor antagonist of the formula

, or a pharmaceutically acceptable isomer, salt, solvate or co-crystal form thereof, in a solid pharmaceutical composition.

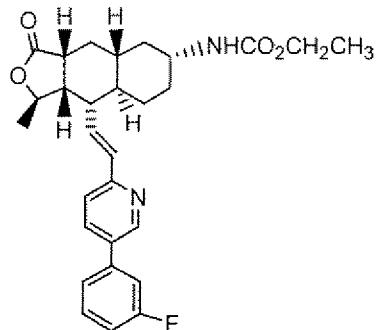

41. (Previously presented) The method according to claim 40, wherein the thrombin receptor antagonist is the bisulfate salt of the compound of the formula

42. (Previously presented) The method according to claim 40 further comprising orally administering to said patient a therapeutically effective amount of aspirin.

43. (Previously presented) The method according to claim 40 further comprising orally administering to said patient a therapeutically effective amount of clopidogrel bisulfate.

44. (New) A method of treating acute coronary syndrome in a patient in need thereof comprising orally administering to said patient a therapeutically effective amount of the thrombin receptor antagonist of the formula

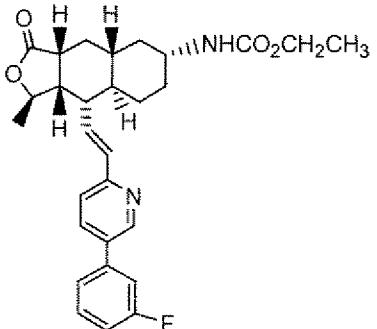

in a solid pharmaceutical composition.

45. (New) The method according to claim 44 further comprising orally administering to said patient a therapeutically effective amount of aspirin.

46. (New) The method according to claim 44 further comprising orally administering to said patient a therapeutically effective amount of clopidogrel bisulfate.

47. (New) A method of treating acute coronary syndrome in a patient in need thereof comprising orally administering to said patient a therapeutically effective amount of the thrombin receptor antagonist of the formula

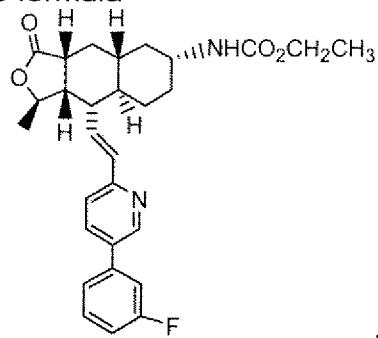

or a pharmaceutically acceptable isomer thereof, in a solid pharmaceutical composition.

48. (New) The method according to claim 47 further comprising orally administering to said patient a therapeutically effective amount of aspirin.

49. (New) The method according to claim 47 further comprising orally administering to said patient a therapeutically effective amount of clopidogrel bisulfate.

50. (New) A method of treating acute coronary syndrome in a patient in need thereof comprising orally administering to said patient a therapeutically effective amount of the thrombin receptor antagonist of the formula

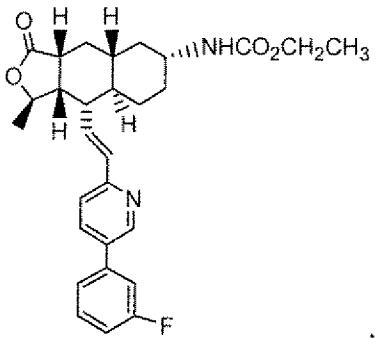

, or a pharmaceutically acceptable salt thereof, in a solid pharmaceutical composition.

51. (New) The method according to claim 50 further comprising orally administering to said patient a therapeutically effective amount of aspirin.

52. (New) The method according to claim 50 further comprising orally administering to said patient a therapeutically effective amount of clopidogrel bisulfate.

53. (New) A method of treating acute coronary syndrome in a patient in need thereof comprising orally administering to said patient a therapeutically effective amount of the thrombin receptor antagonist of the formula

, or a pharmaceutically acceptable solvate thereof, in a solid pharmaceutical composition.

Application No.: 10/705,282

Response to Office Action Mailed December 12, 2007

Date: May 12, 2008

54. (New) The method according to claim 53 further comprising orally administering to said patient a therapeutically effective amount of aspirin.

55. (New) The method according to claim 53 further comprising orally administering to said patient a therapeutically effective amount of clopidogrel bisulfate.
